Catholic Charities Atlanta provides supportive services that enable families to overcome barriers and achieve self-sufficiency.

Catholic Charities Atlanta's client programs are designed to develop critical life skills, provide education and access to employment, and address security and well-being. *We believe in transformational services that equip families with the resources and tools needed to break cycles of instability and poverty.*

Our team has been working with vulnerable populations for nearly 70 years. Our goal is to leverage our experience, services, and partnerships to accompany families as they rise out of poverty once and for all. We believe that charitable assistance that leaves the poor as they are is not sufficient. We envision a community in which all families live independent, self-directed lives.
