Catholic Charities ensures that vulnerable individuals can attain economic self-sufficiency through programs designed to develop critical life skills, provide education and access to employment, address their well-being and ensure families have basic food security and safety. **We believe that charitable assistance that leaves the poor as they are is not sufficient.**

Our team has been working with vulnerable populations for over 60 years. Our goal is to leverage our experience, services, and partnerships to move families out of poverty once and for all. We want to provide a hand up, not a hand out for those who want to live independent, self-directed lives free of financial instability and homelessness.
